

# Green Technology Public Seminar

## Recycling: What Everyone Should Know

Everyone should attend this recycling seminar to find out how easy it is to recycle and how important it is to the environment. Find out how single-stream recycling eliminates sorting of recyclables, which materials are recyclable and which aren't, and what happens to recyclable materials once they're collected.

This seminar is held by **Waste Management**, a Green Center partner and the largest recycler of municipal solid waste in North America.

Recycling one aluminum can saves enough energy to power a TV for three hours!!

**When:** Tuesday, July 20  
6:30 to 8:00 pm  
**Where:** Green Center of Central PA  
**Who:** Everyone is invited.  
Pre-registration is recommended

Contact the Green Center to register for this course at [www.greencentralpa.com](http://www.greencentralpa.com) or register in person at the Center.
